OBJECTIVE

I'm a highly motivated 4th year Information Technology graduate looking for an opportunity to maximize and strengthen my skills in web development. To engineer and design a high-level web application with user-friendly interfaces and functional system specifications in the future.

EXPERIENCE

CODEVERTICAL | Quality Assurance Virtual Internship | 08/2022 – 11/2022

- Demonstrated a meticulous attention to detail while executing test cases, ensuring all conditions outlined in the test plan were thoroughly tested.
- Contributed to the overall quality of the website by effectively communicating issues and discrepancies found during testing, assisting in the creation of a more stable and user-friendly product.
- Acquired a basic to intermediate proficiency in Laravel PHP framework, enabling me to understand the website's development process and single handedly program our capstone project website.

EDUCATION

- **Bachelor of Science in Information Technology |** 09/2019 – 08/2023
- **Science Technology Engineering & Mathematics | Senior High |** 06/2017 – 04/2019

Rizal Technological University

CERTIFICATION

Bayan Academy Intermediate Front-End Web Development Training | 02/2022 – 03/2022

- Skilled in HTML5, utilizing its latest features and semantic markup to structure web content effectively.
- Experienced in implementing Cascading Style Sheets (CSS) to achieve visually appealing and responsive designs across different devices and screen sizes together with Javascript for interactive website.

Certificate of Completion

PROJECT

RTU UCCAE Form Management System | Full Stack | 09/2022 – 05/2023 | https://rtu-uccae-fms.site

- Utilized the MVC Framework, Eloquent ORM, Laravel Auth, and middleware to enhance productivity and ensure system security while retrieving data efficiently.
- Integrated PHP Mailer for audition result notifications, JSDatatable for feature-rich tables, JsChart for data visualization, and Laravel Socialite for third-party user authentication.

ADDITIONAL

Skills (Beginner): Laravel PHP Framework, jQuery, Bootstrap CSS Framework, MySQL, XAMPP, phpMyAdmin, MySQL Workbench, Attention to Detail, Problem Solving and Adaptive.
